Antares Choir Evo Vocal Multiplier 3.0.2 - Intel AU.zip

the antares throt evo is a revolutionary system for more realistic vocal processing. with the addition of the new dsp module, throt evo now includes a much-improved vocal harmonizer, which can be used to create pure and natural-sounding harmonies. the first time you hear throt evo, you will be shocked! for the first time ever, a vocal harmonizer offers an authentic representation of the human vocal tract. more, it provides not only a novel way to

generate vocal harmonies, but also a unique approach to vocal processing. furthermore, antares has launched the antares intelligent vocal dynamics, a revolutionary new algorithm that instantly detects the tonal balance of a song and automatically adjusts the effects of the vocal multiplier to match it. this is the first time ever that antares has included a native pitch correction algorithm that automatically detects the pitch of the vocal track. this allows you to easily correct minor pitch changes in the vocal track, and easily avoid the

need to manually adjust the pitch of the vocal track. the antares broadcaster features four new and improved vocal saturation and enhancement modules, designed to match your vocal tone. the new broadcaster provides an incredibly natural sounding transformation, without artificial over-saturation. the four new modules included in the broadcaster are the antares choir evo is a revolution in vocal processing. if you are a vocal producer, vocal engineer, lyricist, singer, or composer, or even if you just want to get better at your vocal production and recording

techniques, then you owe it to yourself to get this incredible vocal processing plugin set. 5ec8ef588b
